INTRODUCTION

In today's digital age, providing exceptional customer service and user experience is crucial for businesses and organizations. Chatbots have emerged as a powerful tool to achieve this goal. Our chatbot project aims to find IT's company at specified location on desired day and time.

PROJECT DESCRIPTION

```
D: > linux code > $ code.sh
 1 echo "Welcome to Chatbot"
 2 echo "please provide the following information"
 3 your_info(){
 4     echo "enter your name"
 5     read name
 6     echo "enter your location"
 7     read location
 8     echo "enter your interest (IT or NON IT)"
 9     read interest
10     echo "enter day (monday to saturday) "
11     read day
12     echo "enter time (9 am to 9 pm)"
13     read time
```

PROJECT DESCRIPTION

```
14 result
15 }
16 result() {
17 if [ $location == "hinjawadi" ] && [ $interest == "IT" ]
18 then
19 echo " suggestion: you can visit wipro , infoStrecth ,etc IT companies on $day in $time"
20 elif [ $location == "balewadi" ] && [ $interest == "IT" ]
21 then
22 echo " suggestion: you can visit mediaocean,etc IT companies on $day in $time"
23 elif [ $location == "hadapsar" ] && [ $interest == "IT" ]
24 then
25 echo " suggestion: you can visit TRON,Red Hat ,etc IT companies on $day in $time"
26 else
27 echo "No specific suggestions found for your preferences.you can visit non IT companies"
28 fi
29 }
30 forfive() {
31 i=5
32 for i in [ 1..5 ]
33 do
34 your_info
35 done
36 }
```

PROJECT DESCRIPTION

```
37 echo " enter your choice"
38 echo "1. for one entry"
39 echo "2. for five entries"
40 read choice
41 case $choice in
42 1) your_info
43 ;;
44 2)forfive
45 exit 0
46 ;;
47 *) 
48 echo "invalid choice"
49 ;;
50 esac
51
```

USE OF PROJECT:

This mini chat bot help user to get answer of questions regarding IT companies.

RESULT & CONCLUSION :

We created a chatbot that can talk to users and answer their questions regarding information of IT companies near respected location. This project was a success, and we learned a lot from this project.

THANK YOU
